# IRCAD's Global Legacy

Founded in 1994 in Strasbourg, France, under the visionary leadership of Prof. Jacques Marescaux, IRCAD (Institut de Recherche contre les Cancers de l'Appareil Digestif) has become the world's most prestigious training institute for minimally invasive surgery.

**Today, the IRCAD network includes:**

9 global centers across Europe, Asia, South America, North America, and Africa.

Over 6,500 surgeons trained annually from over 120 countries.

Access to WebSurg, the world's largest online surgical education platform.

**IRCAD Global is built on three pillars:**

Training Excellence: Hands-on courses, Relive surgeries, and skill development

Research & Innovation: Leading advancements in surgical robotics, artificial intelligence, and medical technology

International Collaboration: Bringing together the world's top surgeons, researchers, and institutions

With a presence on five continents, IRCAD Global is shaping the future of surgery – and now, with IRCAD India, that future is closer than ever.
